RE: Termination of Post-Closure Care

Dear Mr. Richens:

The Division of Solid and Hazardous Waste has completed its review of your July 18, 2013 request to terminate post-closure care of the closed American Gilsonite Class IIIb landfill. Enclosed with your request were the Engineering Services, Inc. report and the engineering stamp of Russell M Vernon, PE, supporting the proposal that post-closure maintenance and monitoring are no longer necessary.

In accordance with R315-302-3(7)(c) of the Utah Administrative Code, American Gilsonite is authorized to discontinue all post-closure maintenance and monitoring at its Class IIIb landfill. The financial assurance mechanism will also be released to American Gilsonite.

Notwithstanding the release from post-closure monitoring and maintenance of the closed Class IIIb landfill, American Gilsonite is still responsible to maintain the closed landfill in a manner that is protective of human health and the environment in accordance with R315-301-6.

If you have any questions, please call Doug Taylor at (801) 536-0240

Sincerely,

Scott T. Anderson, Director
Division of Solid and Hazardous Waste
